Subject: Call from Citizen RE: Standing Rock Protest Camps

I received a call from a Cynthia Markle Ex. 6 - Personal Privacy who said she was responding to a plea for someone to get in contact with the EPA to investigate potential spraying of chemicals last night via crop dusters without lights on over the anti-DAPL protest camp at Standing Rock (says you can hear the planes in the video). She said the plea came from an eye-witness called Mystic Dave trying to record and post video on YouTube of the incident, claiming there may be efforts to scramble cell signals. She gave me the following search for YouTube: "EMERGENCY at Standing Rock! Water Protectors Being Fired On! (11/20/2016)", which brings up this video <https://www.youtube.com/watch?v=kBF8M9OcSs4>.

That is all the information I was able to get, but gave her Rich Mylott and Cindy Reynolds numbers to try to contact.

Thanks,

Claudia
